## Description

Boost your sales by installing this professional gift list module which allows offering wedding, birth, birthday presents or gifts for any occasion. As efficient as the big department stores, this complete and user-friendly module will simplify your life and make you save a lot of time.

Let your customers create and manage their gift lists on their own. They will be kept **inform of each purchase** on their list thanks to an **automatic email sending!**

Have access to a real **dashboard** which centralizes all the information of the lists and their purchases. No need to spread out papers and archives.

**Data** can be **sorted, filtered, and exported** in **PDF, excel** or csv format!

To communicate with your customers, **generate PDF** detailing gifts (who offered what and when), and with one click **send the PDF by email** to your customer.

Finally, people who want to offer gifts will easily **find the list** of their choice **by an alphabetical name search**, or via a direct link displayed in an email sent by the shop.

## As a merchant

### Easy installation

Installation is quick and easy, **without changing the core** of PrestaShop. An **installation wizard** will guide you, and even offers to **import data from the old module** Prestashop gift list!

### Simplify your life

Get everything you need to manage your boutique and gift lists:

- **list of orders** with lists of gifts for a selected period
- analysis of each gift list with total purchases, **detail of orders and products purchased** and the remaining

### Increase productivity

In one or two clicks, get access to all information of gift lists.

To be well prepared for an appointment with a client who created his/her list, save time by **knowing immediately who bought what and when**, what remains on his/her list, what is the total of donations... You can also directly have access to the back office of the order or a product by clicking on specific icons displayed on the page.

### Satisfy your customer (who created a list)

- Send him/her the **PDF summary by email** in two clicks to provide an update on the purchases of his/her list, view the content of the email before sending it, receive a copy of this email if you wish.
- Propose a **user-friendly** and complete interface.

### Adapt to each situation

Whether you are at your desk, on the ground preparing orders or in a meeting with a client, take advantage of many available output formats (**PDF, monitor, printer, csv, excel**).

## As the creator (of a gift list)

### Use every functionality with ease

An **online manual** guides you in creating your gift list, as well as mouse-over **context-sensitive** help icons.

### Communicate quickly address list

- Send an **email invitation** to your friends, customize it and view it before sending.
- Get the **web link** of your list and send it by e-mail
- Or propose the **name search**

### Manage the list

- **Publish** your list when you are ready : it will be **available for buying products** and displayed in search list results.
- **Prioritize** your products, up to 5 levels to sort products
- **Add or remove a product** at any time, and set up the wished **quantity** by product

### Know in real time

- **who gave you what**, either on screen or in a pdf
- **messages** from your friends
- the **quantities** offered, and the remaining quantities

## As a donor (to offer a gift)

### Find a list easily

**Search for a list by name**, without having to find the mail featuring the link

### Congratulate

**Leave a message** (of congratulations for example) to the recipient of the gift when buying

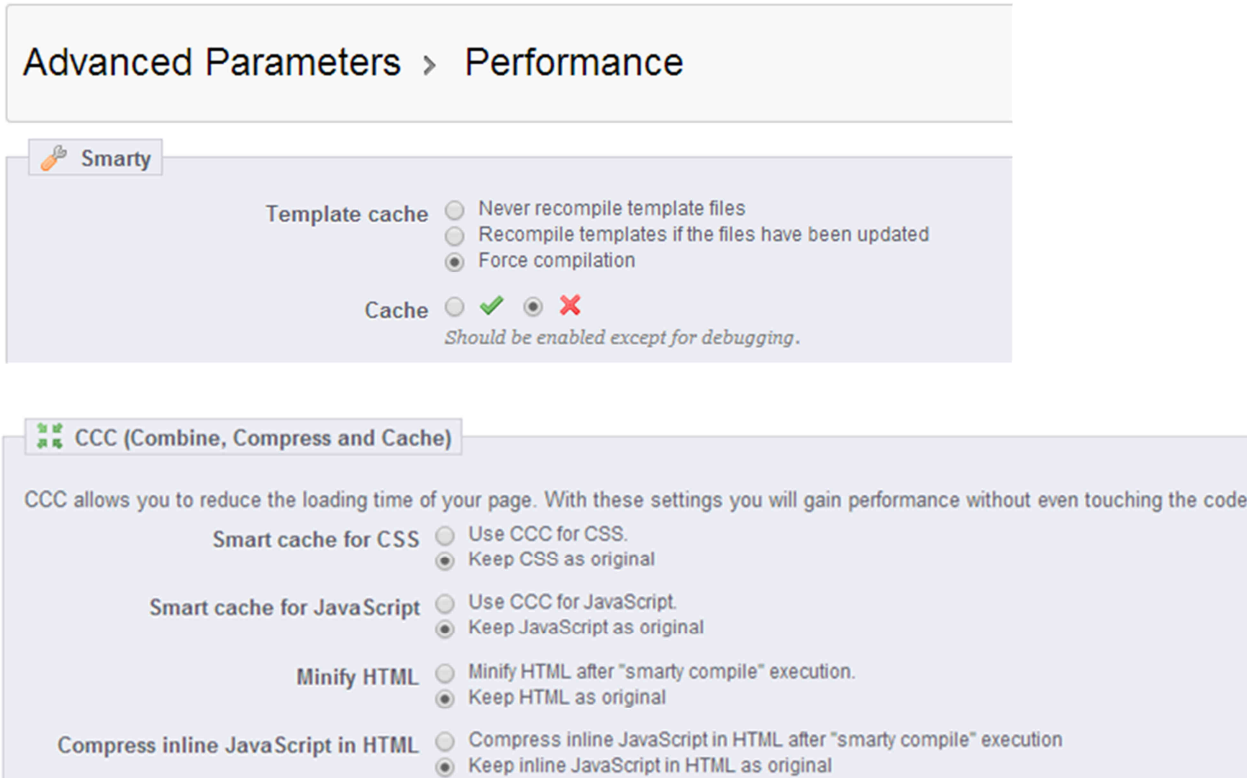

### Enjoy Prestashop

Take advantage of the functionalities of Prestashop about the **payment** and **data security**

# Install and configure the module (back-office)

✓ **IMPORTANT : remove any performance cache smarty settings and CCC parameters before installing the module. You will set them back afterwards.**

Exemple of performance recommended settings (Prestashop 1.5x here) to install the module.

## Download the module

### Versions < 1.3

- ✓ Unzip the blockwishlistpro.zip file. You can use 7-zip with the option "extract here". You obtain a directory named blockwishlistpro.
- ✓ Copy and paste the blockwishlistpro directory to the "modules" directory of your shop.

## Versions 1.3 and >1.3

Connect to back-office

Click “Modules” sheet,

- ✓ “add a module from my computer”
- ✓ In the section “module file” select the zip file of the module “blockwishlistpro.zip”
- ✓ “upload this module”

Back Office > Modules HELP

**Add a module from my computer** Add a module from PrestaShop Addons  Search

**Add a new module**

The module must be either a zip file or a tarball.

**Module URL**  Download the module directly from a website  
[Download this module](#)

**Module file** **Choisissez un fichier...** Aucun fichier choisi  
Upload the module from your computer  
[Upload this module](#)

## Install the module

- ✓ Click “Front Office Features” or “Blocks” depending on versions

## Installation message

### Case 1

The native prestashop module “**Wishlist block v0.2** by *PrestaShop*” (blockwishlist) has not been installed. You don't have anything to do, just wait for wishlists and purchases!

- > Information [1]: no data at this time because no list created and no purchases.

The screenshot shows the PrestaShop Back Office interface for the 'PRO Wishlist block' module. At the top, there is a navigation bar with 'Back Office > Modules' and a 'HELP' icon. Below this, there are links for 'Module blockwishlistpro', 'Back', 'Manage hooks', and 'Manage translations:'. The main content area is titled 'PRO Wishlist block' and contains two sections: 'Settings' and 'Cockpit'. The 'Settings' section has an 'Activate module' button and a message: 'Activate module (block wishlist PRO and "Add to my wishlist" button)'. Below this message are two radio buttons, one with a green checkmark and one with a red 'X', and a 'Save' button. The 'Cockpit' section features a yellow warning box with a red '1' icon and the text: 'No wishlist with bought products at this time -> No data'. Below the warning box are two panels: 'Orders View' and 'Customer View'. The 'Orders View' panel has radio buttons for 'today', 'last 7 days', 'last 30 days', 'Select a period (format yyyy-mm-dd)', and 'all orders', along with a 'Results' button. The 'Customer View' panel has dropdown menus for 'Customer...' and 'Wishlist...', and a list of links: 'PDF and MAIL', 'Total donations', 'Detail - Orders', and 'Detail - Products of the list'.

## Case 2

The native prestashop module has been installed and no wishlists have been created (no data).

- > Information [1] : The native prestashop module should be uninstalled.
- > Information [2] : Nobody has offered gifts at that time.

### PRO Wishlist block

The screenshot shows the 'PRO Wishlist block' settings and cockpit. The 'Settings' section has an 'Activate module' button and a 'Save' button. The 'Data recovery' section shows a transition from 'previous module Wishlist' to 'new module PRO Wishlist', both marked as 'installed'. A warning message states: 'The previous wishlist module (native module by Prestashop) should be uninstalled ! Do not forget to back up your database before.' The 'Cockpit' section has a 'No wishlist with bought products at this time -> No data' message. It includes an 'Orders View' section with radio buttons for 'today', 'last 7 days', 'last 30 days', 'Select a period (format yyyy-mm-dd)', and 'all orders'. The 'Customer View' section has dropdowns for 'Customer...' and 'Wishlist...' and a list of links: 'PDF and MAIL', 'Total donations', 'Detail - Orders', and 'Detail - Products of the list'.

### Note:

To uninstall the native prestashop module please connect to the back office, click on the "modules" tab, select the line of the native module by Prestashop (**Wishlist block v0.2 by PrestaShop**) and click « uninstall »

 **Wishlist block v0.2 by PrestaShop**  
Adds a block containing the customer's wishlists.  
[Delete](#) [Disable](#) [Reset](#) [Configure](#)

### Case 3

The native prestashop module has been installed and some wishlists have been created (data detected).

- > Information 1: The native prestashop module should be uninstalled. Caution : should you want to keep your previous lists and view and manage them in the new module please use “import data” displayed on this screen.
- > Information 2: Some lists have been created (“data detected”). Before proceeding to uninstall the native module (refer to the point below) and if you may want to import these lists in the new module (“import data”) please do not forget to import data first.
- > Information 3: No list has been created at this time. Hence there isn't any data.

The screenshot shows the Prestashop Back Office interface. At the top, there's a navigation bar with 'Back Office > Modules' and a 'HELP' icon. Below that, a module management bar shows 'Module blockwishlistpro', 'Back', 'Manage hooks', and 'Manage translations' with flags for US, FR, ES, and IT. The main content area is titled 'PRO Wishlist block' and has a 'Settings' tab selected. On the left, the 'Activate module' section is visible, with a 'Save' button. On the right, the 'Data recovery' section is highlighted with a yellow box and labeled '1'. It shows a comparison between the 'previous module Wishlist' (installed, Data detected) and the 'new module PRO Wishlist' (installed, No data). Below this, a warning message states: 'The previous wishlist module (native module by Prestashop) should be uninstalled. Do not forget to back up your database before.' A second yellow box labeled '2' highlights the 'Import data' button. Below the 'Data recovery' section, a third yellow box labeled '3' displays a message: 'No wishlist with bought products at this time -> No data'. At the bottom, the 'Cockpit' section is visible, with 'Orders View' and 'Customer View' tabs. The 'Orders View' has radio buttons for 'today', 'last 7 days', 'last 30 days', 'Select a period (format yyyy-mm-dd)', and 'all orders', with a 'Results' button. The 'Customer View' has dropdown menus for 'Customer...' and 'Wishlist...', and a list of links: 'PDF and MAIL', 'Total donations', 'Detail - Orders', and 'Detail - Products of the list'.

### Note:

Once you have imported your data: to uninstall the native prestashop module please connect to the back office, click on the “modules” sheet, select the line of the native module by Prestashop (**Wishlist block v0.2 by PrestaShop**) and click « uninstall »

The screenshot shows a module card for 'Wishlist block v0.2 by PrestaShop'. The card includes the module name, a description 'Adds a block containing the customer's wishlists.', and a row of action buttons: 'Delete', 'Disable', 'Reset', and 'Configure'. A green checkmark is visible to the right of the card.

# Gift coupon

## Use

Some of your customers would like to add gift coupons to their list. The objective is to let donators

- feel free about the list because they may not want to choose a specific product in the list
- fix the amount of the gift accurately

This is like a contribution. At the closure of the list, you will generate a credit slip to refund this total to your client who has created the list.

## Create a gift coupon

- First create a new product called « gift coupon ». Set the price (for example 10€) and add a new image by selecting the « gift.gif » file in the modules/blockwishlistpro directory.
- When creating his list your customer could add this gift coupon as a product. It is advised to choose “top” as priority to display it on the top of the web page (top=first).
- The donator will purchase this product as everyone else.

Gift coupon

10,00 €

Quantity to offer :

[Offer the gift](#)

quantity remaining on the list : 98

# Dashboard of the module (back office)

## Access the back-office

To access the back office of the module click “configure” on the line “PRO Wishlist block” in the list of modules.

### Comment

Please do not forget to **uninstall the native module by Prestashop (Wishlist block v0.2 by PrestaShop) before using this module (“PRO Wishlist block”).**

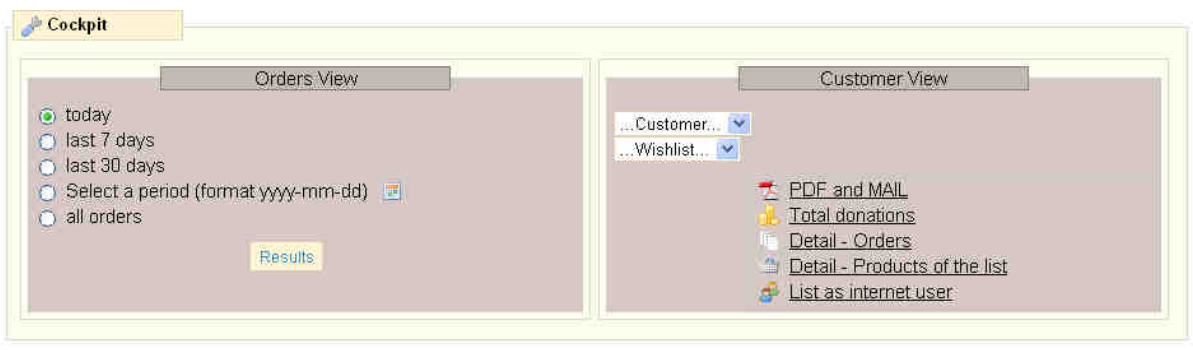

**Before uninstalling** and in the case you want to keep lists created with the previous native module (Wishlist block v0.2 by PrestaShop) you can **import data by clicking “configure”** on the line of “PRO Wishlist block” and then **“import data”** (please refer to case 3 above).

To prevent any problem of data it is strongly advised to **back up your database before.**

**Tip :** save the link into your **favorites** of your browser for greater convenience.

Find out all data regarding the wishlists in the cockpit section.

For instance you may want to get the orders of the day placed through wishlists (block « orders view »). Or print the pdf of products bought on the list of one of your client before an appointment with him (block « customer view »).

## Orders view : orders of wishlists over a period

By selecting the period (for example "last 30 days") the list of orders of wishlists over a period is displayed. The list can be exported or printed out.

**Orders of wishlists over a period**

Type of period: last 30 days

From 2011-07-13 to 2011-08-12

Created on 2011-08-12

Clear Filters (2 lines)

Date of order	Order	Customer name	Carrier	Wishlist	Wishlist name	Wishlist creator name
2011-08-12	3	dd d		2	test	dd d
2011-08-11	2	dd d	My carrier	2	test	dd d

## Customer view

Select a client and get all the information about his (her) wishlist : total of purchases, detail by order, detail of bought products.

**Customer View**

test

- PDF and MAIL
- Total donations
- Detail - Orders
- Detail - Products of the list
- List as internet user

## PDF and MAIL

Click “pdf and mail” and view the summary wishlist PDF of the selected client and the selected wishlist : offered products and donators, messages of donators. You can also send the pdf by email.

The screenshot shows the 'Cockpit' interface with two main panels: 'Orders View' and 'Customer View'. In the 'Orders View' panel, there are radio buttons for 'today', 'last 7 days', 'last 30 days', 'Select a period (format yyyy-mm-dd)', and 'all orders', along with a 'Results' button. In the 'Customer View' panel, there are dropdown menus for 'dd d' and 'test', and a menu with options: 'PDF and MAIL' (circled in red), 'Total donations', 'Detail - Orders', 'Detail - Products of the list', and 'List as internet user'.

This screenshot shows the 'PDF and MAIL - List #000002 - d dd - test' window. It contains a 'Back to Cockpit' button in the top right. The main content is titled 'PDF document with donation details' and includes three sections: 'Open /read /save PDF' with an 'Open PDF' button (highlighted with a red box), 'Send the PDF to the creator of the list by e-mail' with a 'Send PDF' button (highlighted with a red box) and a 'Receive a copy of the e-mail' checkbox, and 'Find out the email template' with a button (highlighted with a red box).

## Total donations

By clicking “total donations” the total of gifts is detailed.

This screenshot is similar to the first one, showing the 'Cockpit' interface. In the 'Customer View' panel, the 'Total donations' option in the menu is circled in red.

This screenshot shows the 'Total Donations - List #000002 - d dd - test' window. It features a 'Back to Cockpit' button in the top right and a summary table with the following data:

Products	1 312,30 €	incl. products from wishlist	1 312,30 €
Shipping	8,37 €		
Total	1 320,67 €		

The detail of orders and bought products can be displayed. If needed be, you can go directly to the back-office of one order or one product
